PRESS RELEASE

BOOTH Sustainability Award 2025

The Catering Box

The Catering Box is PROUD to receive this year's BOOTH Sustainability Award! The BOOTH Sustainability Award is usually for booth configuration and set up - not the specific products contained within. **However**, this year it was noted by the Judges that the actual products, The Catering Boxes themselves, fit the criteria for #8 on the evaluation list, "Are display items reusable/recyclable?" The Catering Boxes received the HIGHEST Score in the show for this category.

There were 10 sustainability criteria in total that were used by the evaluation team when looking at all of the booths at the Informa Show.

The Catering Box received a 10 out of 10!
